PURE FRAGRANCE

PERFUME BRAND OF HOME FRAGRANCES

BAGO home is a rapidly growing brand of natural home scents. For fifteen years, we have carefully selected fragrances and dreamed of the moment when we could launch this project. It became possible due to hard work of the company's founder along with a team of talented specialists. BAGO home philosophy is to create pure, true fragrances, like nature itself. BAGO home fragrances are handcrafted from natural ingredients, using innovative technologies. As a basis for diffusers and sprays we use a unique green solvent that does not have its own smell, that is why the slogan of BAGO home is pure fragrance.

ORIGINALS

ORIGINALS IS A BASIC COLLECTION OF THE BRAND.

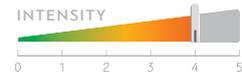

These scents with natural fruity and floral fragrances suit both those who have never tried the home aromatization before and adore home perfumery. A special place in the collection has a fragrance of fruit of an exotic tree marula which has been used as major note in home and personal perfumery for the first time.

ORIGINALS SCENTS ARE AS NATURAL AS THERE IS AN INVOLUNTARY DESIRE TO "EAT" THEM.

There are 50 ml and 100 ml diffusers, scented sachets and soy wax scented candles, sprays and refills in the collection. Our diffusers are oil based and we use fiber sticks that dispense pure fragrance.

WATERCOLOUR

A FRAGRANCE AS ART

WATERCOLOUR collection was inspired by the impressionist artists. The fragrance is transmitted through the impression and sensation of colour. The palette of weightless aroma paints (floral, woody, fruity) turns your home into a piece of art. The collection includes mini-diffusers and table diffusers with pressed cotton fiber sticks, which are odourless and transmit the fragrance in its pure form, as a white canvas does not distort the paint!

MOSAIC

When you look through colored pieces of glass at fields of blond buckwheat, sunny mustard, fragrant lavender and silvery oats; when rivers, smoking after the summer heat, flow past, and fluffy, like made of cotton candy, clouds float past, laurel hills and long snakes of roads run straight into the sky; when cicadas chirp in the pomegranate gardens, and the falling rocky roses shimmer in the sunlight refraction and smell under the scorching sun; when shadows play fancifully on sandy plasters and glare on the ancient enamel blinds the eyes. Then fragrant patterns are born, carefully collected by our perfumers in the new Mosaic collection. Enjoy!

MY THAI

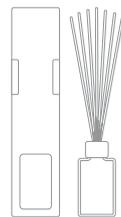

THE NEW MY THAI COLLECTION WAS BORN OUT OF LOVE AND GRATITUDE TO THAILAND.

The respect and careful attitude of Thais to their traditions, how delicately and unobtrusively they share their culture with the outside world, served as inspiration for the creation of exquisite fragrant compositions imbued with the ancient secrets of aromatherapy.

The scents of Thailand is the smell after the rain, a mixture of aromas of mango tree, exotic flowers, frangipani; tropical notes of coconut, vanilla and powdery jasmine - the fragrance of a blooming garden of paradise is combined with bright notes of spices of Thai cuisine...

The aromas of mysterious Thailand will allow you to create that very incredible atmosphere of love, warmth and comfort.

Each of the five luxurious aromatic bouquets has its own unique power to operate emotions and feelings, allowing you to tune the strings of the soul to the sound of a harmonious melody in the human heart.

THE VERY NEW YEAR

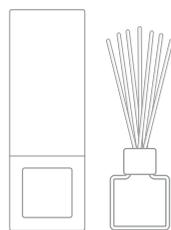

The very New Year that you are looking forward to as a child; when your dad brings the Christmas tree home, and it smells of forest; when your mom is busy in the kitchen, making the best menu to surprise guests and to please family; when the whole family gets together, a filmscope projector hums softly, and a screen lights up on a white sheet hung on the wall and frames from a fairy tale appear...

This collection of wonderful fragrances will create a New Year's mood at your home with magical scents of pine needles, spices, fruits and herbs, collected in compositions that inspire you to dream.

The packaging of fragrance diffusers from this collection is decorated with touching illustrations by the artist Marina Fedotova.

As Marina says, she draws for children and adults who were children once.

WINTER WONDERLAND

Sometimes it seems that we came from some unusual world... It is so easy to breathe there, you can fly and soar above the ground and dreams and reality are the same. This ethereal world has no gravity, and everything is possible there: even fabulous elves, sonorous fairies and great wizards.

Follow us and we will lift the veil of secrets and magic of the elves and fairies of the ethereal world. Trust your nose! Listen to the magical music of fragrances! Enjoy!

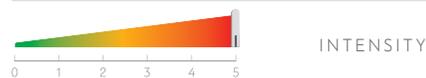

The gift packaging of fragrance diffusers and candles from the WINTER WONDERLAND collection is decorated with adorable characters created exclusively for BAGO home by English artist Reuben McHugh.

Creating magical images for our collection, Ruben took inspiration from the fragrances themselves and tried to imagine a mysterious forest where Santa Claus, together with his helpers and fairies, creates a magical Christmas world filled with love and kindness.
